

CALFED BAY-DELTA PROGRAM

Radio Alert Week of November 2

MILESTONE LOOMS ON BAY-DELTA SOLUTION

WHAT:

The CALFED Bay-Delta Program is nearing a major milestone in its historic effort to address the environmental and water management problems associated with the Bay-Delta system. At the first of the year, CALFED will release its draft preferred alternative for a Bay-Delta solution. On November 4, the Program will host an open house public meeting in Walnut Grove to gain input from Delta communities.

WHY:

The decisions made over the next few months will impact every Californian. Communities in the Delta region have specific concerns, including:

- How will Delta area communities be affected by upcoming decisions about the management of the Bay-Delta system?
- What is being done to improve water quality?
- What is the plan to stabilize the levee system?
- How can local residents express their ideas and concerns to Bay-Delta policy makers?

WHO:

Tom Zuckerman, Central Delta Water Authority
Pat McCarty, Bay-Delta Advisory Council

CONTACT:

To arrange an interview, please contact Jill Esterbrooks,
